Boulevards of Tamarac
2611 NW 53rd Street
Tamarac, FL 33309

To: Janssen Meredith

Clarke Pest Control proposes to provide the homeowners of the Boulevard of Tamarac with a lawn care program. This lawn care program can be provided at a cost of \$30.00 per quarter or \$125.00 annually.

The lawn care program consists of an insecticide & nutritional spray application four times a year (quarterly), fertilizer twice annually in the spring & fall, weed control during the cooler months of fall through spring. Fungicide will be applied as needed (usually during the summer months).

Clarke Pest Control utilizes integrated pest management practices (IPM). The goal of IPM practices is to reduce pesticide use, control pests, reduce costs, and conserve energy and to reduce the risk of exposure to people, animals, and the environment. All labor and materials will be furnished to provide the most efficient pest control and maximum safety by federal, state and local regulations.

Clarke Pest Control looks forward to hearing from you and hope that we can serve you in the future. Please do not hesitate to call our office if you have any questions or need additional information.

Sincerely,

A handwritten signature in blue ink that reads "Donald Clarke". The signature is fluid and cursive, with the first name being the most prominent.

Donald Clarke
